

Robotic Arm Calibration Manual

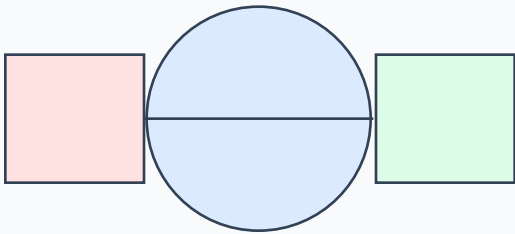

manual-c | split=test | page=01

Robotic Arm Calibration Manual / calibration table
Document family: manual-c; split: test.
Technical domain: robotic arm; bilingual signal: 机械臂校准.
Reference code MANUAL-C-01 links the page image to OCR-like text.
Table signal: operating limit 21 psi and ΔT 4 C.
Figure signal: callout F1 labels sensor, valve, and service port.
Layout signal: top-left panel, center warning band, and footer revision box.
OCR-failure-style signal: SOL-1 may be confused with SOL-I in scans.
中文/English mixed note: 检查 机械臂校准 before reset sequence.

Robotic Arm Calibration Manual

manual-c | split=test | page=02

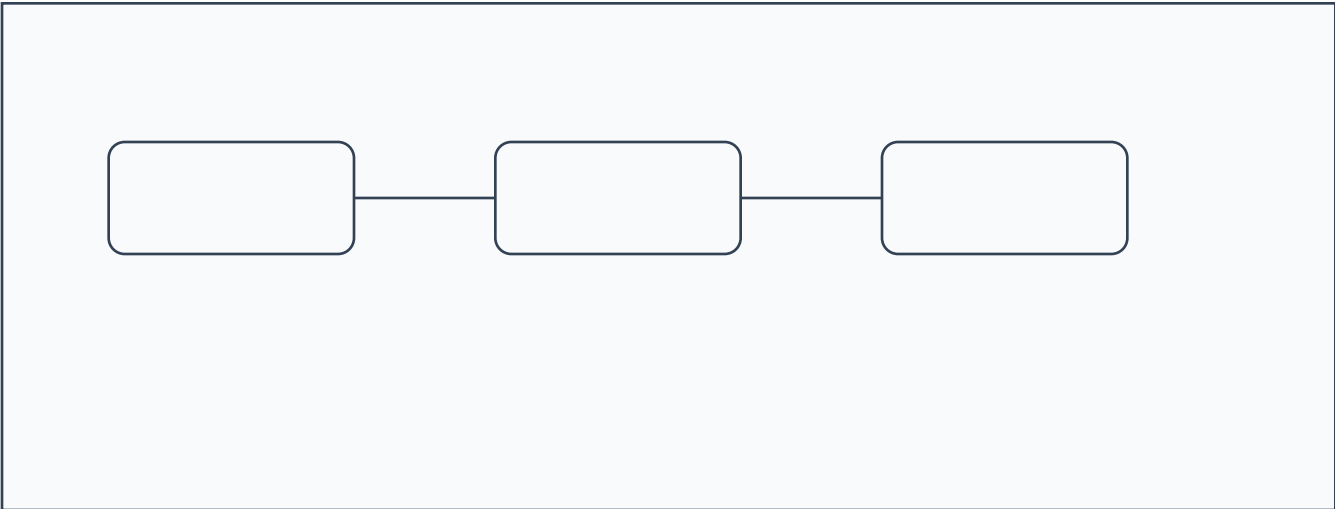

Robotic Arm Calibration Manual / exploded component figure
Document family: manual-c; split: test.
Technical domain: robotic arm; bilingual signal: 机械臂校准.
Reference code MANUAL-C-02 links the page image to OCR-like text.
Table signal: operating limit 22 psi and ΔT 5 C.
Figure signal: callout F2 labels sensor, valve, and service port.
Layout signal: top-left panel, center warning band, and footer revision box.
OCR-failure-style signal: SOL-1 may be confused with SOL-I in scans.
中文/English mixed note: 检查 机械臂校准 before reset sequence.

Robotic Arm Calibration Manual

manual-c | split=test | page=03

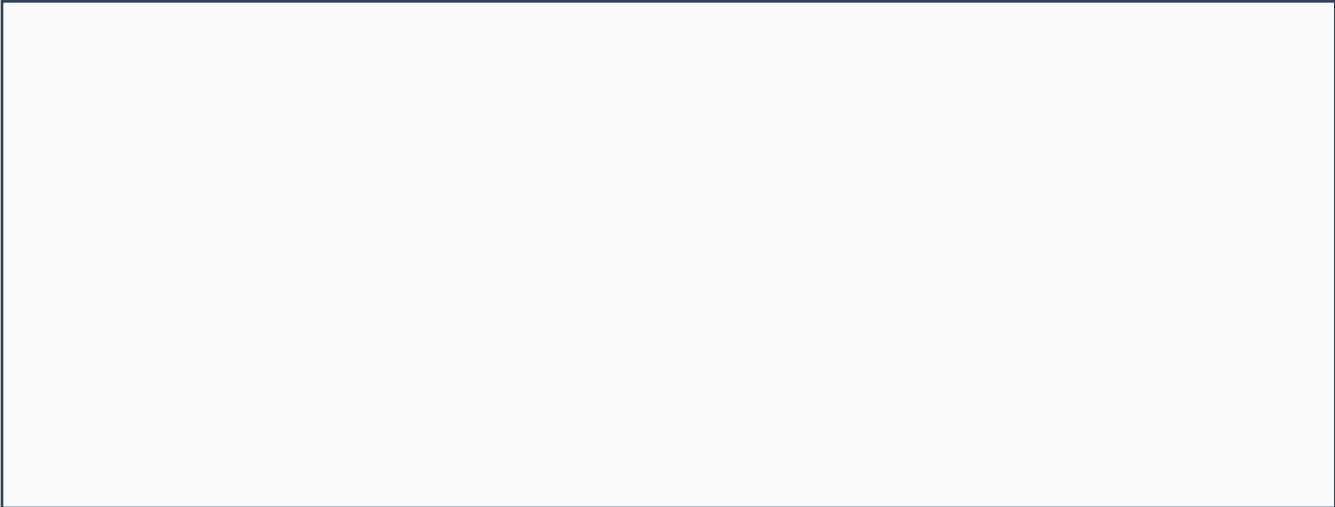

Robotic Arm Calibration Manual / startup flow diagram
Document family: manual-c; split: test.
Technical domain: robotic arm; bilingual signal: 机械臂校准.
Reference code MANUAL-C-03 links the page image to OCR-like text.
Table signal: operating limit 23 psi and ΔT 6 C.
Figure signal: callout F3 labels sensor, valve, and service port.
Layout signal: top-left panel, center warning band, and footer revision box.
OCR-failure-style signal: SOL-1 may be confused with SOL-I in scans.
中文/English mixed note: 检查 机械臂校准 before reset sequence.

Robotic Arm Calibration Manual

manual-c | split=test | page=04

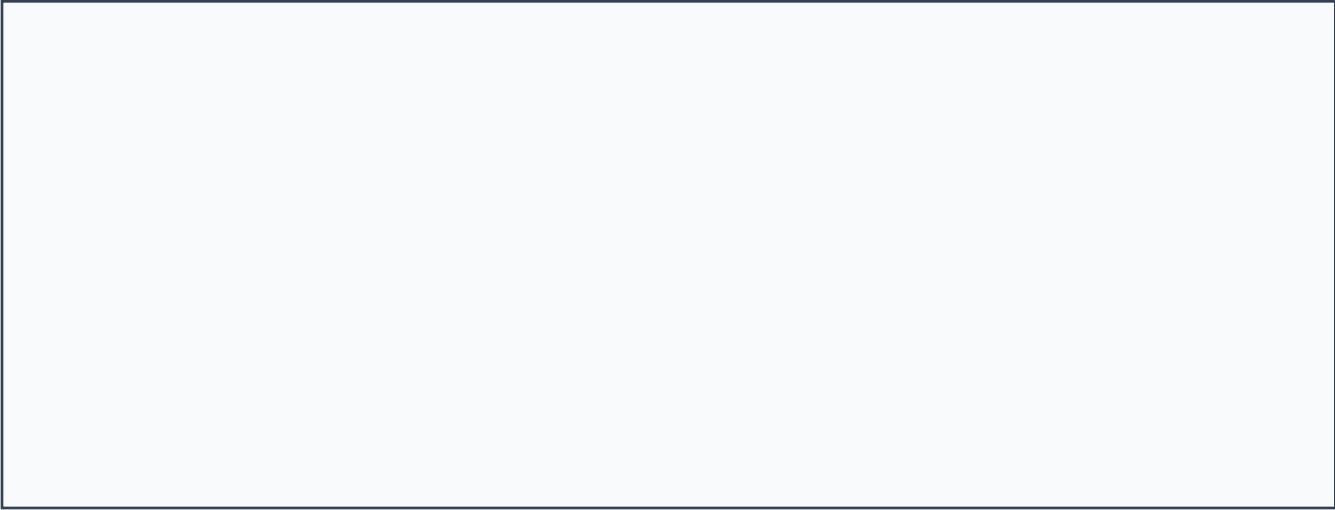

Robotic Arm Calibration Manual / torque specification
Document family: manual-c; split: test.
Technical domain: robotic arm; bilingual signal: 机械臂校准.
Reference code MANUAL-C-04 links the page image to OCR-like text.
Table signal: operating limit 24 psi and ΔT 7 C.
Figure signal: callout F4 labels sensor, valve, and service port.
Layout signal: top-left panel, center warning band, and footer revision box.
OCR-failure-style signal: SOL-1 may be confused with SOL-I in scans.
中文/English mixed note: 检查 机械臂校准 before reset sequence.

Robotic Arm Calibration Manual

manual-c | split=test | page=05

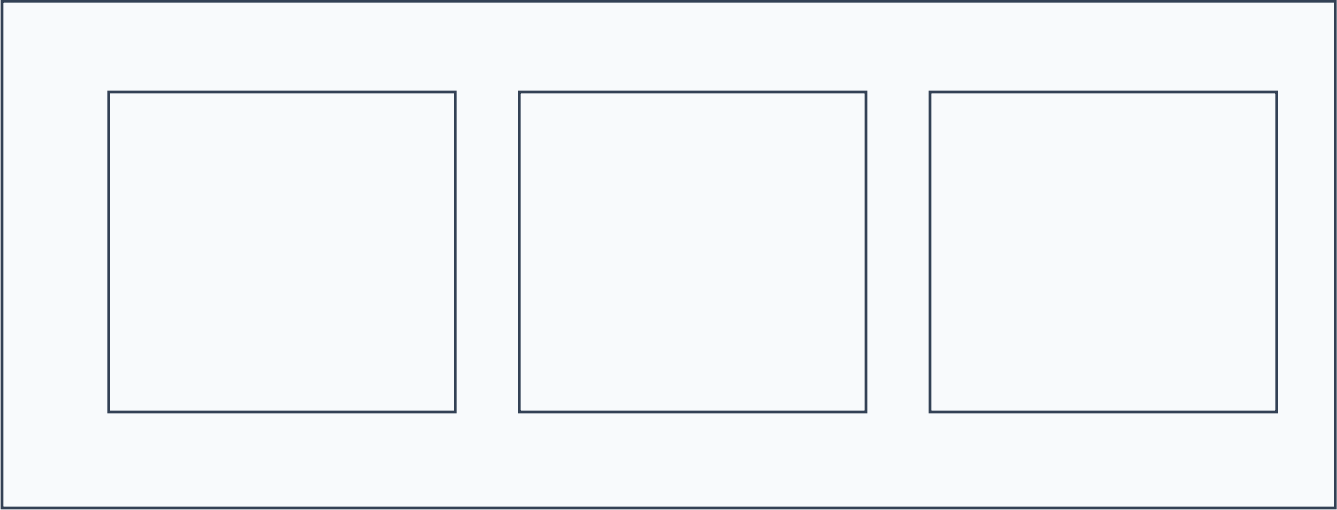

Robotic Arm Calibration Manual / fault troubleshooting
Document family: manual-c; split: test.
Technical domain: robotic arm; bilingual signal: 机械臂校准.
Reference code MANUAL-C-05 links the page image to OCR-like text.
Table signal: operating limit 25 psi and ΔT 8 C.
Figure signal: callout F5 labels sensor, valve, and service port.
Layout signal: top-left panel, center warning band, and footer revision box.
OCR-failure-style signal: SOL-1 may be confused with SOL-I in scans.
中文/English mixed note: 检查 机械臂校准 before reset sequence.

Robotic Arm Calibration Manual

manual-c | split=test | page=06

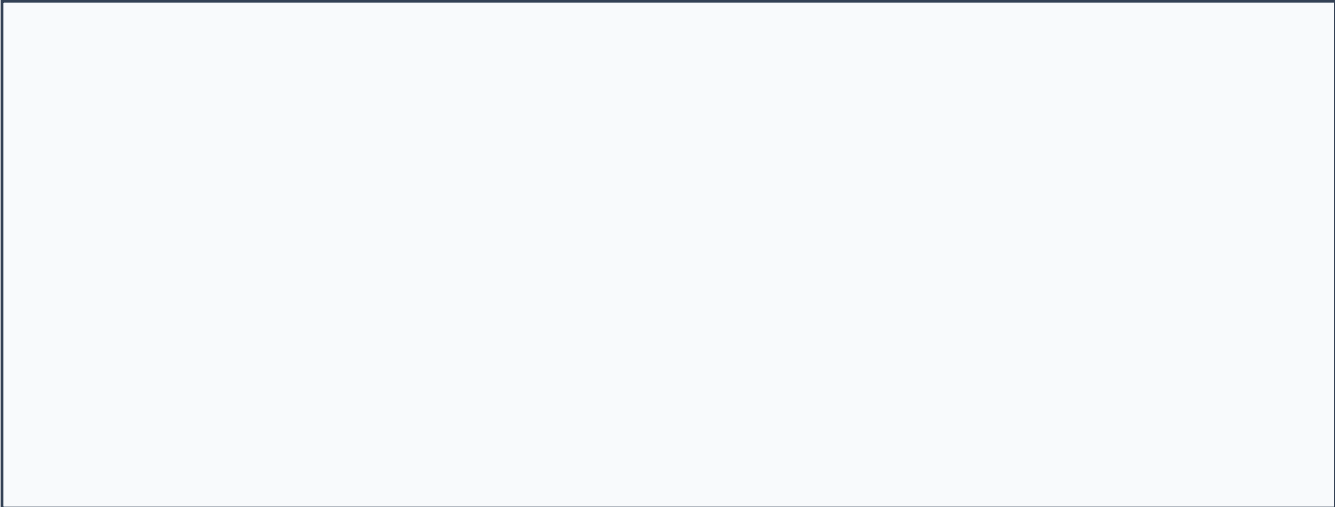

Robotic Arm Calibration Manual / control panel layout
Document family: manual-c; split: test.
Technical domain: robotic arm; bilingual signal: 机械臂校准.
Reference code MANUAL-C-06 links the page image to OCR-like text.
Table signal: operating limit 26 psi and ΔT 9 C.
Figure signal: callout F6 labels sensor, valve, and service port.
Layout signal: top-left panel, center warning band, and footer revision box.
OCR-failure-style signal: SOL-1 may be confused with SOL-I in scans.
中文/English mixed note: 检查 机械臂校准 before reset sequence.

Robotic Arm Calibration Manual

manual-c | split=test | page=07

Robotic Arm Calibration Manual / faint scanned label
Document family: manual-c; split: test.
Technical domain: robotic arm; bilingual signal: 机械臂校准.
Reference code MANUAL-C-07 links the page image to OCR-like text.
Table signal: operating limit 27 psi and ΔT 10 C.
Figure signal: callout F7 labels sensor, valve, and service port.
Layout signal: top-left panel, center warning band, and footer revision box.
OCR-failure-style signal: SOL-1 may be confused with SOL-I in scans.
中文/English mixed note: 检查 机械臂校准 before reset sequence.

Robotic Arm Calibration Manual

manual-c | split=test | page=08

Robotic Arm Calibration Manual / 中英 mixed checklist
Document family: manual-c; split: test.
Technical domain: robotic arm; bilingual signal: 机械臂校准.
Reference code MANUAL-C-08 links the page image to OCR-like text.
Table signal: operating limit 28 psi and ΔT 11 C.
Figure signal: callout F8 labels sensor, valve, and service port.
Layout signal: top-left panel, center warning band, and footer revision box.
OCR-failure-style signal: SOL-1 may be confused with SOL-I in scans.
中文/English mixed note: 检查 机械臂校准 before reset sequence.
